Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	4 Marks

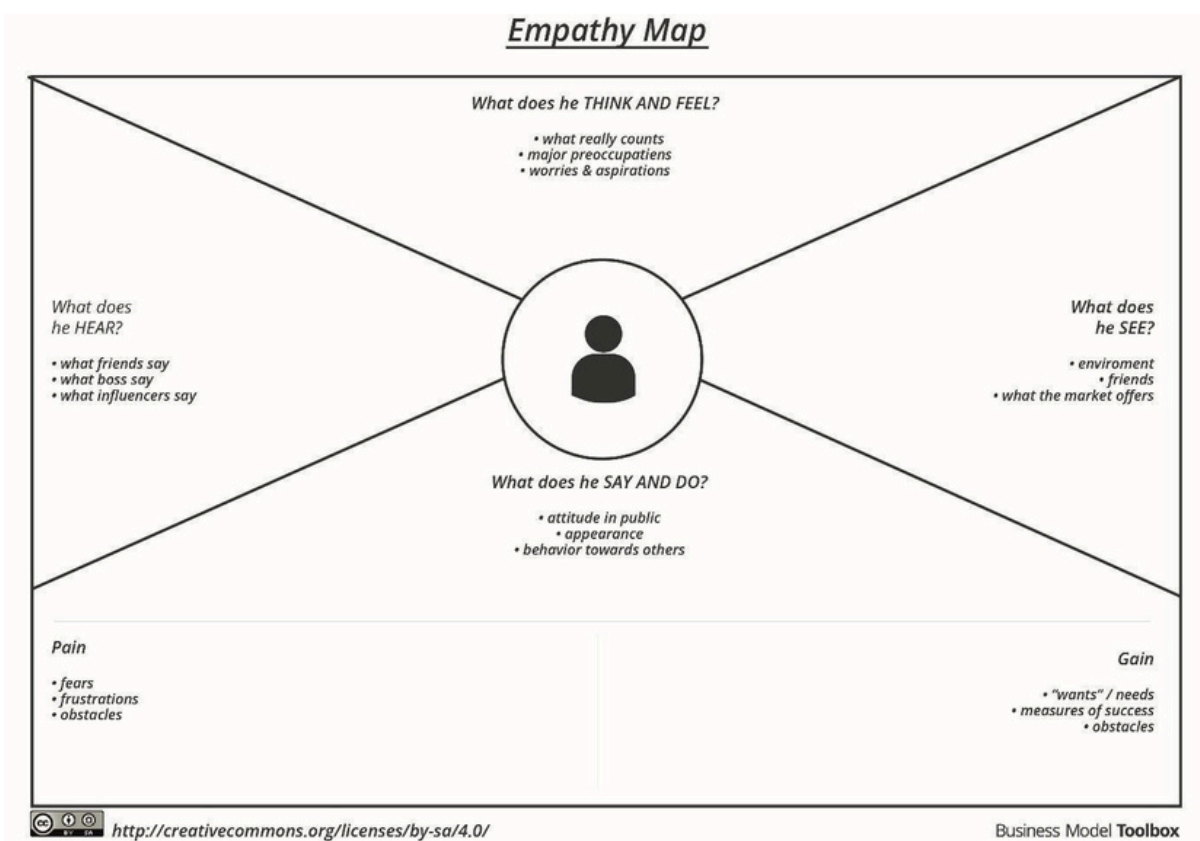

#### Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

## Example: Home trends and Price Analysis

Users see **property listings, market reports, graphs, maps, and online tools** that show housing prices and trends. They often deal with **confusing or inconsistent data** and rely on **visual comparisons** to understand the market and make decisions
